

MANUAL

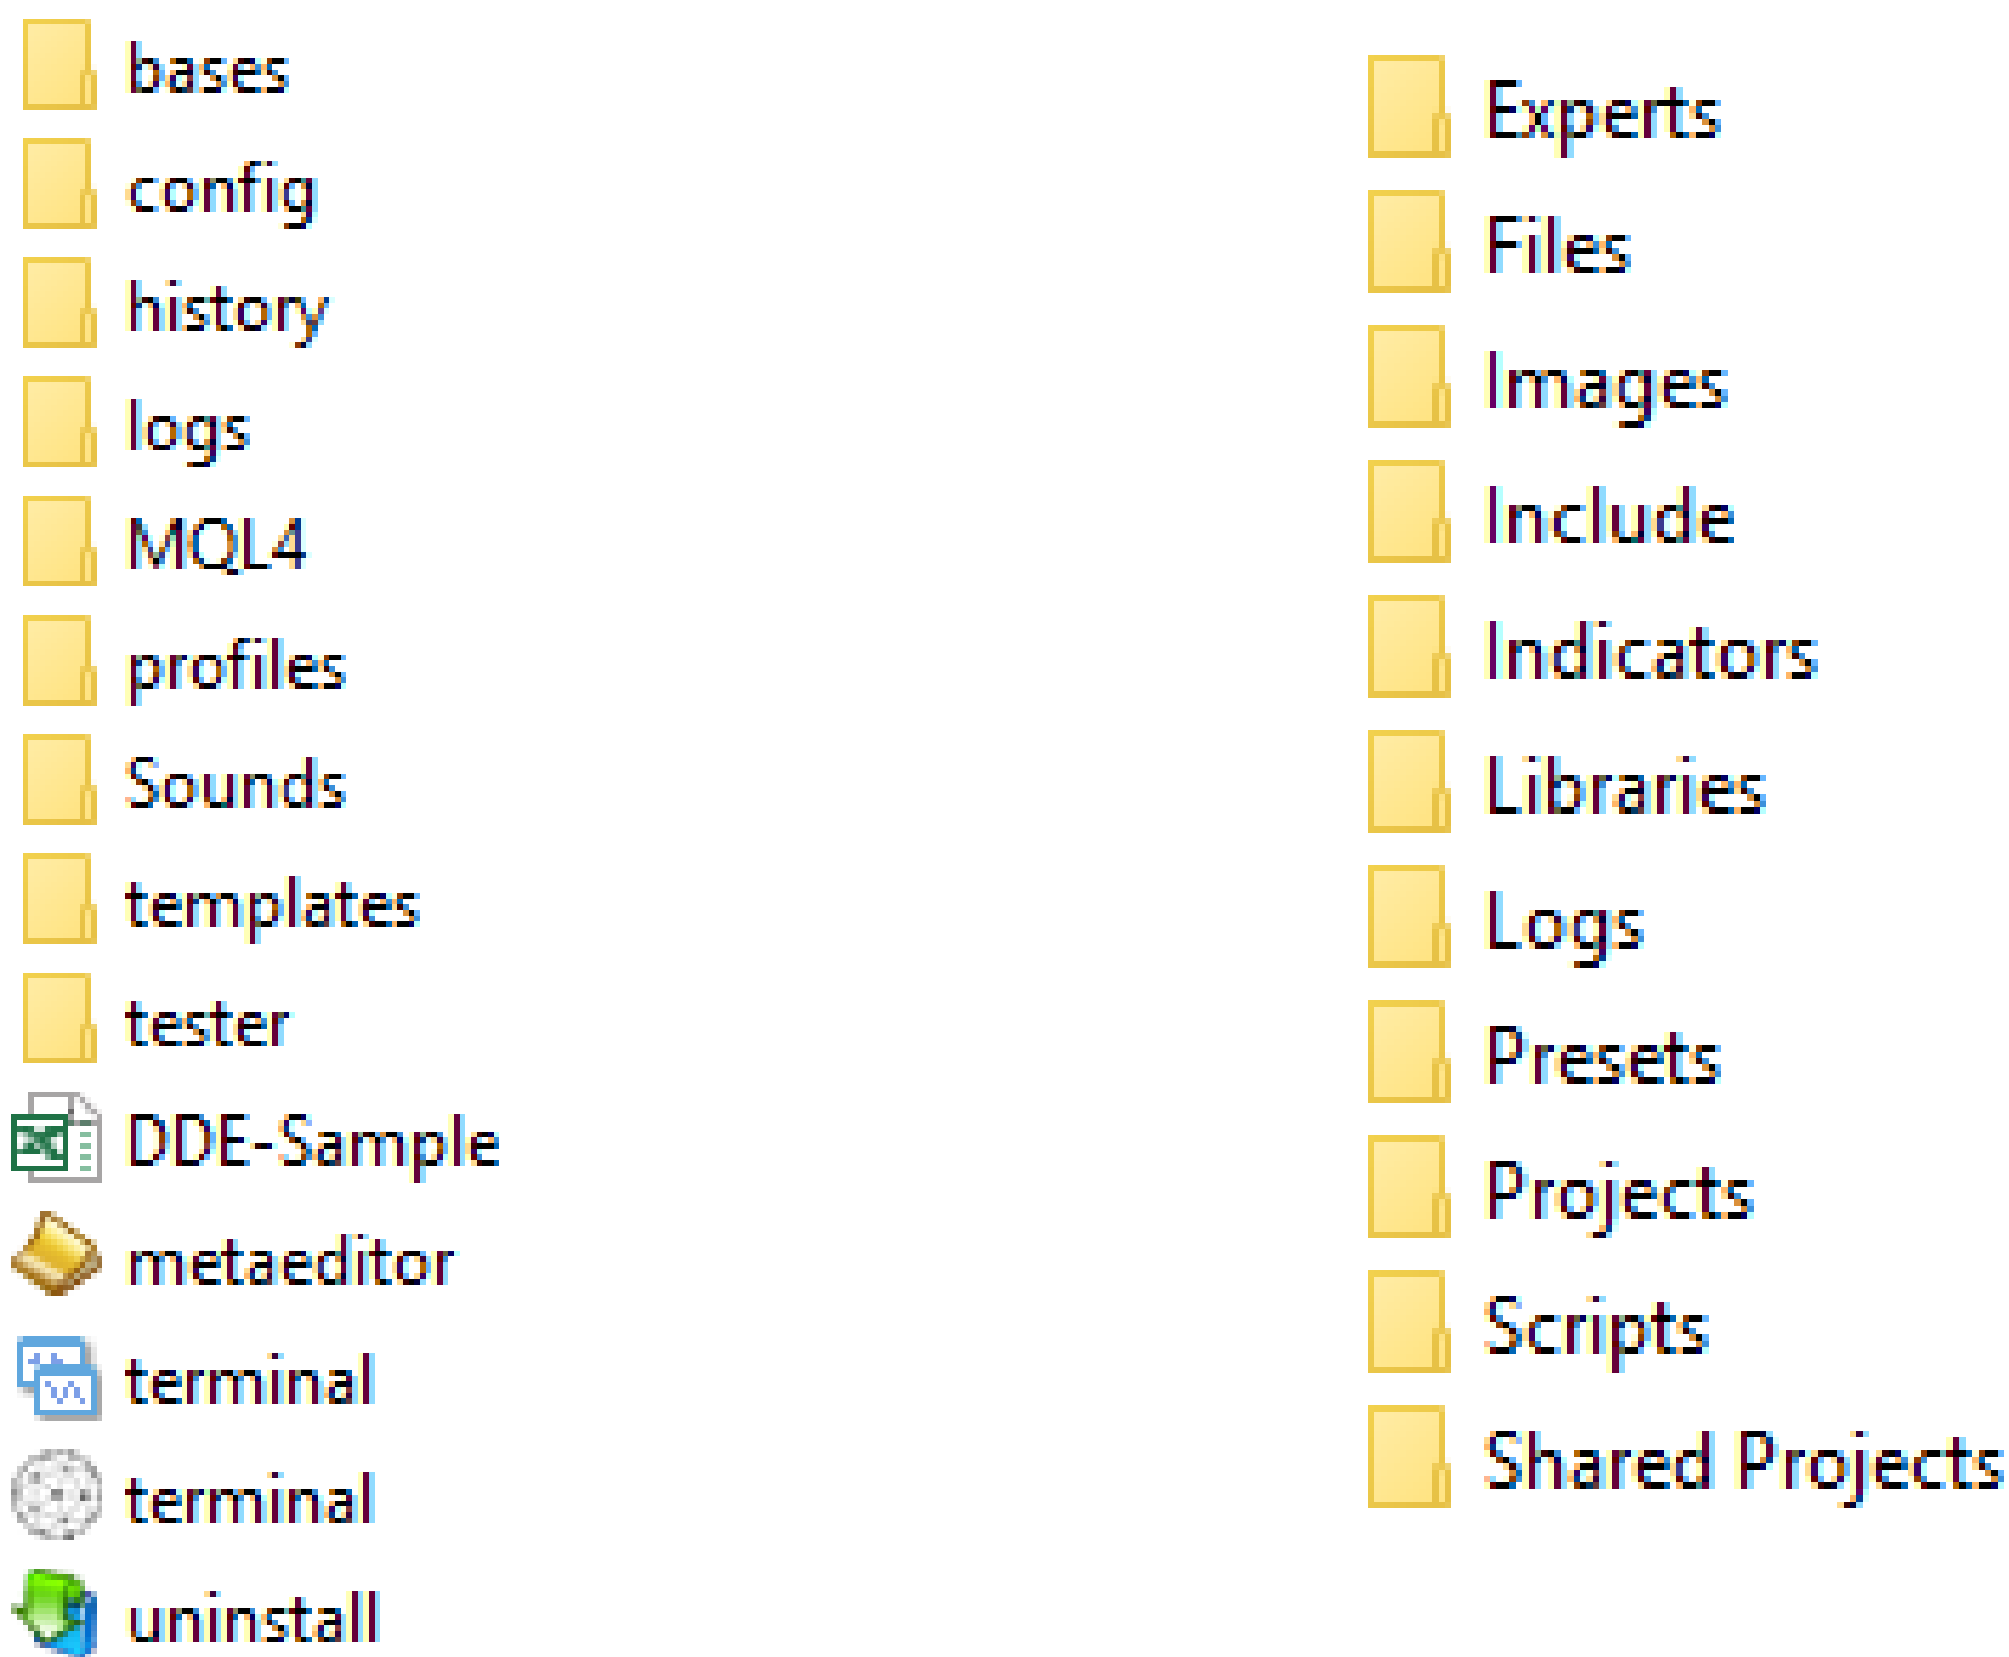

STEP 1

Open the folder where you will need to place the robot and additional file

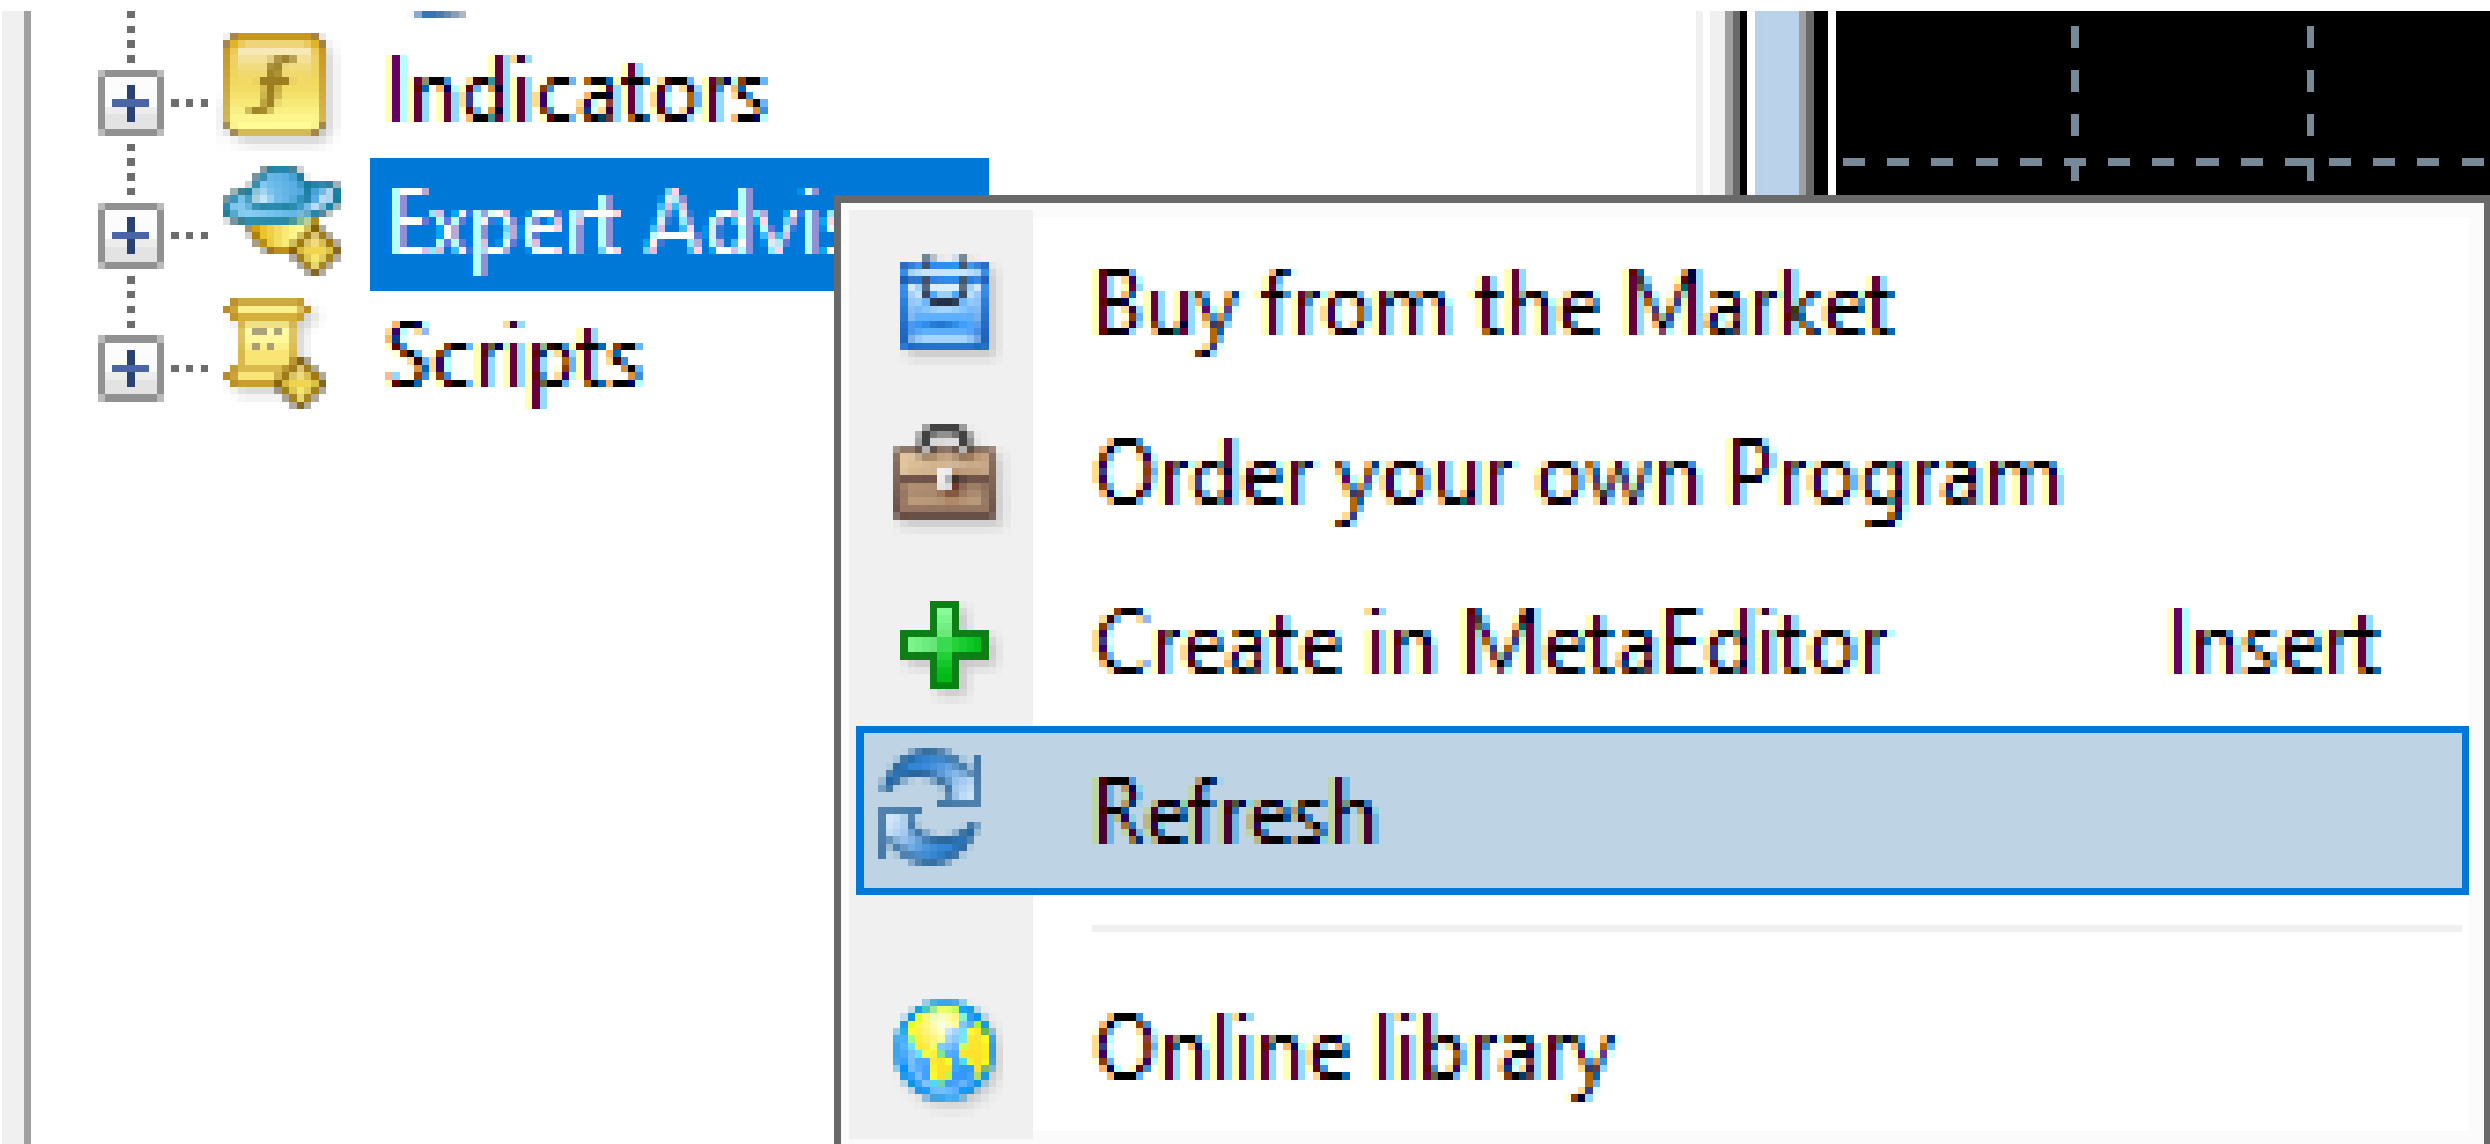

STEP 2

Open the MQL4 folder and put the BLACKBIRD robot file in the Experts folder, and the PaintMachine file in the Indicators folder

STEP 3

Do not edit or run PaintMachine file! It colors the signals of another indicator! If this file is damaged or changed, the robot will not work correctly! Place it in a folder and forget about it.
