1. Disclaimer

U.S. Government Required Disclaimer - Commodity Futures Trading Commission Futures and Options trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this website. The past performance of any trading system or methodology is not necessarily indicative of future results.

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR OVER-COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

Trading foreign exchange on margin carries a high level of risk and is not suitable for all investors. The high degree of leverage can work against you. As with all investments, you should not invest money that you cannot afford to lose. Before deciding to invest in foreign exchange, you must carefully consider your investment objectives, level of experience, and risk appetite. Additionally, you must be aware of all the risks associated with foreign exchange trading and seek advice from an independent financial advisor. Past results are not necessarily indicative of future success. Your actual trading may result in losses as no trading system is guaranteed. You accept full responsibilities for your actions, trades, profit or loss, and agree to hold Advanced Scalper Expert Advisor, their authors and any authorized distributors of this information harmless in any and all ways.

2. About Advanced Scalper

AdvancedScalper is fully automated Expert Advisor designed for scalping with impressive results during the Asian session.

It trades between 21-23 GMT on EURCHF, EURGBP, EURUSD, GBPCHE, GBPUSD, USDCHF using M1 time frame.

There are different TP/SL per pair/buy/sell/. The range of TP is between 5-10 pips and for SL is between 30-70 pips.

We have chosen the right strategy combination that provides maximum profits for each pair. Because each currency pair has its own particularities, the strategies were optimized per currency and direction.

AdvancedScalper product is really revolutionary in terms of getting huge profits in today's turbulent market conditions. AdvancedScalper robot based on years of historical analysis of currencies evolution stands for the most popular scalping robot in the world.

AdvancedScalper features represent the newest approach of trading Forex currencies. It is very simple to install, running in profit on all kind of brokers (4 digits as well as 5 digits brokers, ECN/STP brokers, NFA compliant etc). Take advantage of our built-in money management that assists and protects your account to the safest level.

Being designed to earn many pips daily, this robot will be unstoppable and will bring you the most expected financial satisfaction.

3. Installation for Builds > 6.0

Before you start the installation of AdvancedScalper you should have installed on your PC/VPS one or more MT4 platforms. If you need more information about MT4 you can find here the guide:

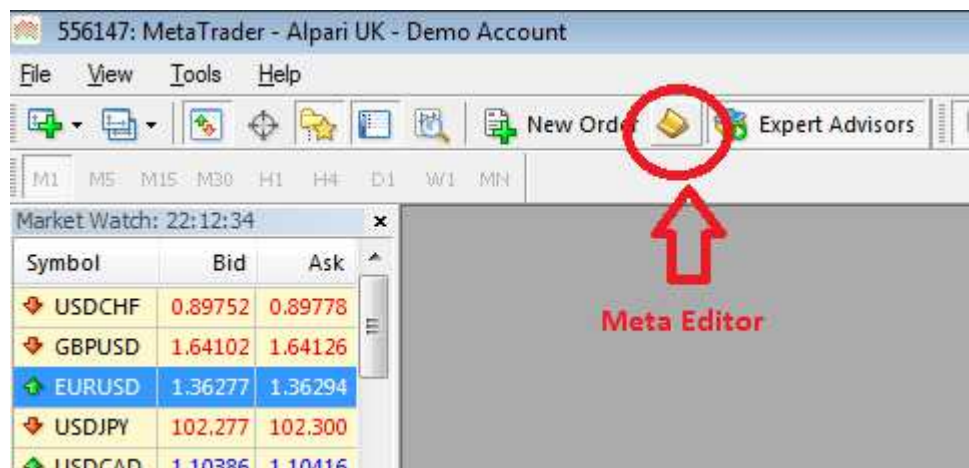

<http://www.alpari.co.uk/support/faqs/top-faqs/how-do-i-download-metatrader-4-mt4>

Step 9

Now you should be able to see AdvancedScalper in MT4 platform.

3. Installation for Builds < 6.0

Before you start the installation of AdvancedScalper you should have installed on your PC/VPS one or more MT4 platforms. If you need more information about MT4 you can find here the guide:

<http://www.alpari.co.uk/support/faqs/top-faqs/how-do-i-download-metatrader-4-mt4>

Step 1

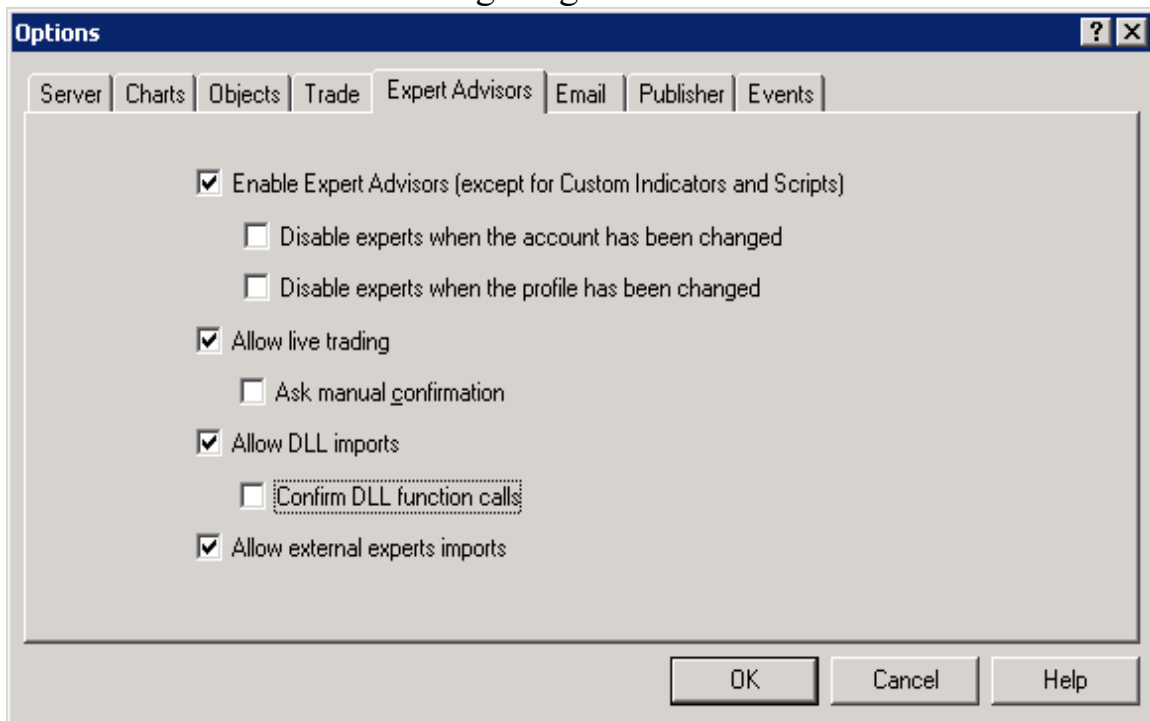

Copy **AdvancedScalper.ex4** in to MT4...\experts\ folder and **AdvancedScalper.dll** to MT4...\experts\libraries\

Step 2

Restart MetaTrader.

4.Starting Advanced Scalper

Before you drag Advanced Scalper to charts please check your MT4 platform settings from Tools->Options->Expert Advisors. Your settings should look like in the following image:

Open charts for the pairs:

EURCHF, EURGBP, EURUSD, GBPCHF, GBPUSD, USDCHF in **M1** time frame.

Drag Advanced Scalper on all ten charts. You should see a smile face in the right corner.

Important: Your computer must be ON and connected to the internet for the expert advisor to trade. If your computer is not ON or connected the expert advisor cannot open/modify/close orders.

5.Settings description

InvoiceNumber

Transaction ID received by e-mail from Click2Sell (e.g. Transaction ID: 123354)

LicenseKey

License Key received from AdvancedScalper.com

Notes:

- please check that you don't have blank spaces before or after license
- license is only for one account. License for a live account can't be used for a demo account with the same number. You will have to request also a license for demo account.

NFA_broker

Set to true if you want to use Advanced Scalper on a NFA broker.

ECN_broker

Set to true if you want to use Advanced Scalper on an ECN broker.

MagicNumber

The magic number allows Advanced Scalper to find his orders.

MaxSlippage

Maximum price slippage for buy or sell orders.

Allow_BUY

When is true, buy orders are allowed.

Allow_SELL

When is true, sell orders are allowed.

MaxSpread

Maximum allowed spread.

Our max spread recommendations are:

- for broker accounts without commission

USDCHF 3.4, GBPUSD 3.5, EURUSD 2.3, EURGBP 2.6

EURCHF 3.7, GBPCHF 8.8

- for broker accounts with commission(ECN)

USDCHF 2.8, GBPUSD 3.0, EURUSD 2.0, EURGBP 2.4

EURCHF 3.1, GBPCHF 7.4

TradeFriday

If true, trading is allowed on Fridays.

UseFixedLot

If true, fixed lots are used instead of calculation based on Balance.

FixedLot

Lots to use if UseFixedLot = true.

Risk

Risk from Balance. e.g. if Risk

= 10% and Account Balance = 1500 then lots = 1.5

AutoGMT

If true GMT offset is automatically detected.

GMToffset

If AutoGMT is false, GMToffset value is used. In backtest AutoGMT calculation is not available and the value from GMToffset should be set with correct broker GMT offset.

DSTEnable

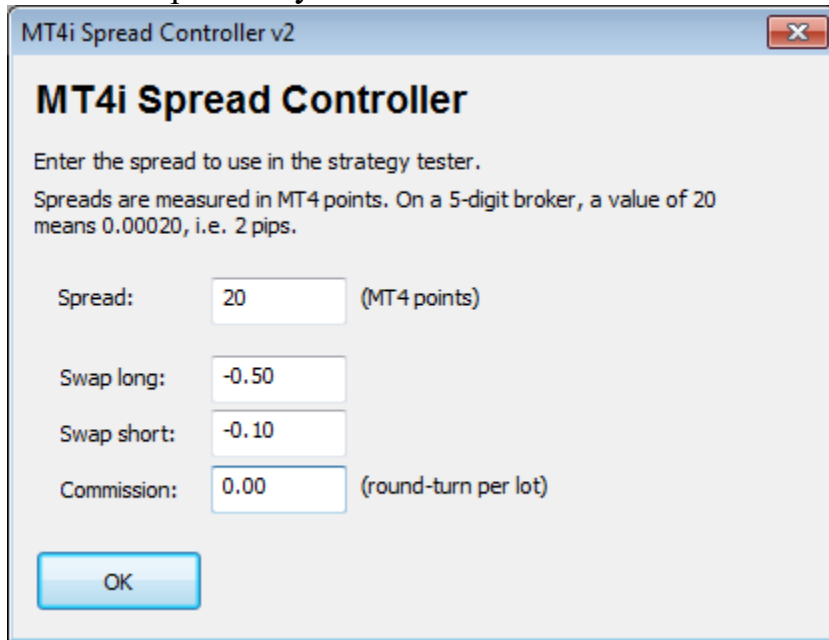

If your broker change hour for " Daylight Saving Time" then set to true. If AutoGMT is true then DST is automatically calculated.

6.Backtest

To obtain accurate results in Backtests you should follow the steps:

1. Download the history.
2. Set GMToffset parameter with your broker GMToffset
3. Set DSTEnable parameter to true if your broker use DST.
4. Use SpreadChanger script from:

<http://www.mt4i.com/appstore/app.aspx?id=5&sort=popularity> You should set commission to 0 if your broker don't have commissions or lower the spread if you have commission.

The screenshot shows a Windows-style dialog box titled "MT4i Spread Controller v2". Inside the dialog, the title "MT4i Spread Controller" is displayed in bold. Below the title, there is instructional text: "Enter the spread to use in the strategy tester. Spreads are measured in MT4 points. On a 5-digit broker, a value of 20 means 0.00020, i.e. 2 pips." There are four input fields with labels to their left: "Spread:" with a value of "20" and "(MT4 points)" to its right; "Swap long:" with a value of "-0.50"; "Swap short:" with a value of "-0.10"; and "Commission:" with a value of "0.00" and "(round-turn per lot)" to its right. At the bottom left of the dialog is an "OK" button.

Parameter	Value	Unit / Description
Spread	20	(MT4 points)
Swap long	-0.50	
Swap short	-0.10	
Commission	0.00	(round-turn per lot)
