# Introduction to Vergil Expert Advisor

Vergil is a Scalping automated Forex Trading Program. Vergil analyzes the forex market and places trades using a platform and an account with a forex broker.

**The platform should be MT4 (Meta Trader 4).**

Vergil Expert advisor trades the major currency pair which is one of the most widely traded instruments. The EA incorporates fundamental and technical analysis to precisely pick trades.

It is strongly advised that you read the full manual prior to continuing with the expert advisor. The system has a proven record for success however it is normal for the system to produce temporary small drawdown.

**Currency Pairs : EURUSD, AUDUSD, GBPUSD, USDJPY, USDCAD, USDCHF**  
**Time Frame : 15M**

U.S. Government Required Disclaimer - Commodity Futures Trading Commission  
Futures and Options trading has large potential rewards, but also large potential risks.

You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this web site. The past performance of any trading system or methodology is not necessarily indicative of future results.

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER- OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program.

Hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading.

The use of this system constitutes acceptance of our user agreement.

# How to Install Vergil EA

You have to first make sure that you have installed Meta trader 4 Platform.

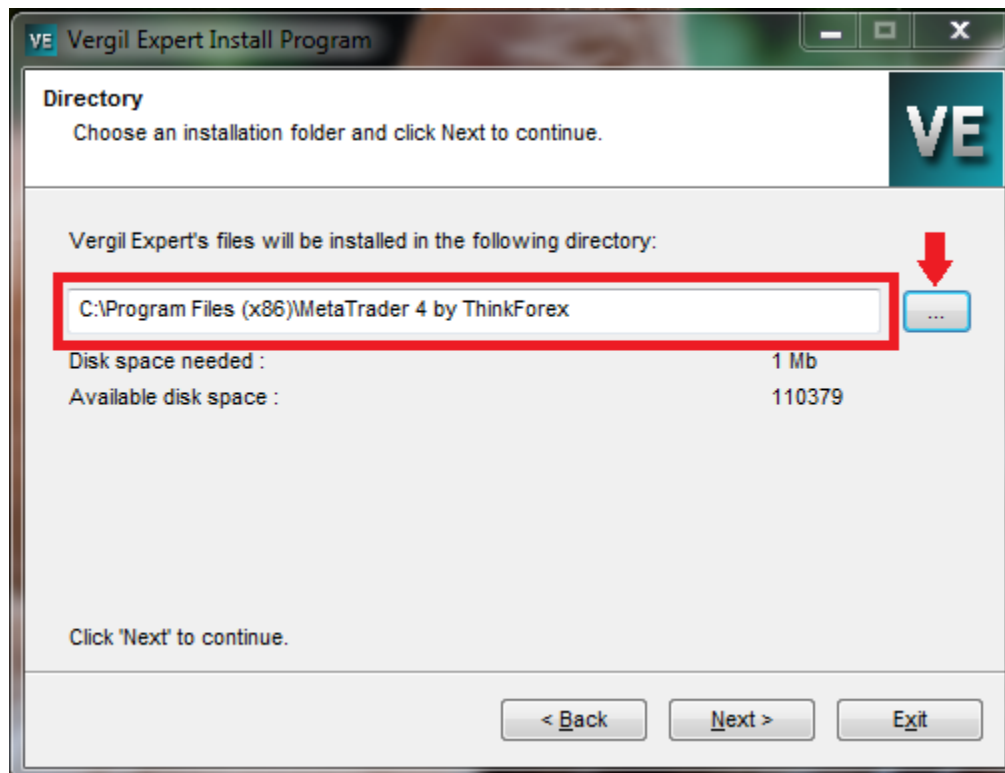

MT4 Download Link: <http://www.thinkforex.com/forex/open-forex-demo-account>

## Step 1

Download the “Vergil\_DayTrader.zip” file.

## Step 2

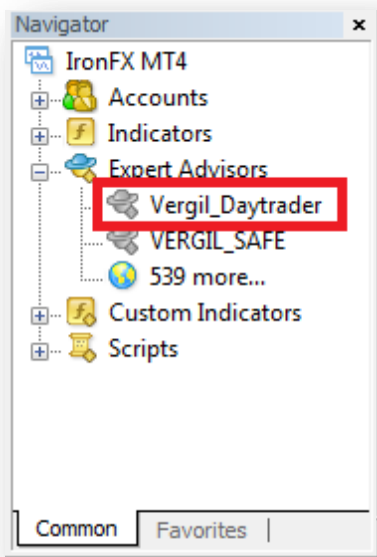

Right click the zip file, and from the menu select extract here. An Installation files will be created on you extracted location.

### **Step 3**

- 1- Open "Install.exe" file.
- 2- Next Button
- 3- Read license agreement and click next button
- 4- Choose and installation folder and click Next ( you must choose your MT4 direction folder)

Remember to restart your platform when you have installed the files to the respective directories. Once you have copied the files to correct path you will see Vergil EA icon in your Platform, navigator panel under expert advisor.

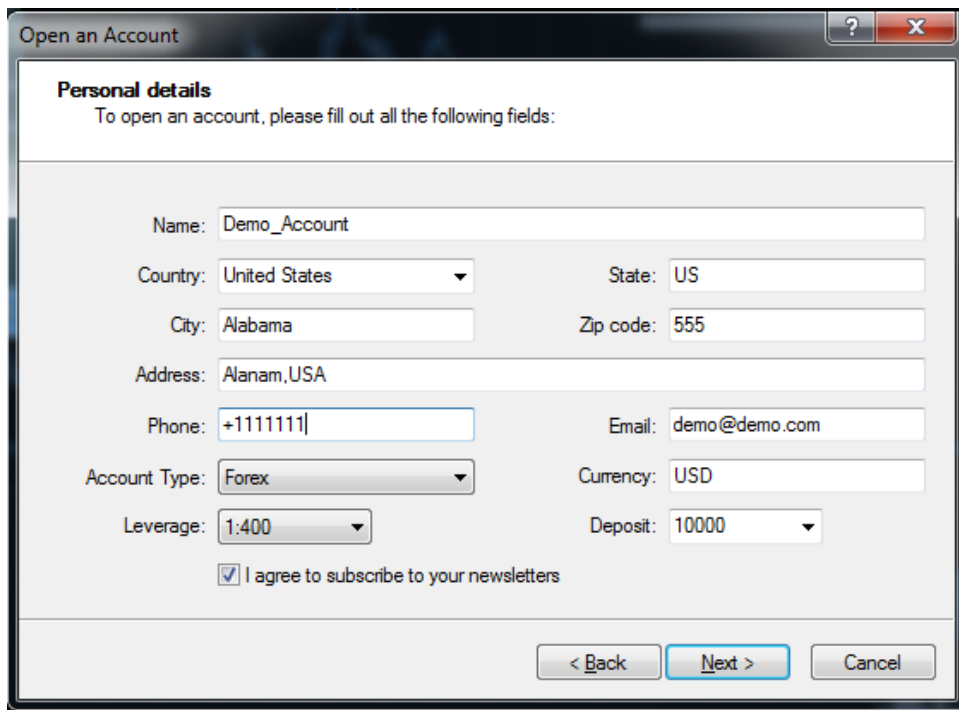

# Deploying EA over Chart

Once you have installed Meta Trader 4 platform and copied the expert advisor files in expert directories, you are ready to trade and put the EA to action. It is advised that you first try the EA on demo account to get comfortable with the ins and outs of the EA.

## Step 1

Open Meta trader 4 platform. If it asks you to update the platform then update it to the most recently built. You need to first create a demo account to test the EA on forward market.

Go to **File > Open an Account**

**Open an Account**

**Personal details**  
To open an account, please fill out all the following fields:

Name: Demo\_Account

Country: United States State: US

City: Alabama Zip code: 555

Address: Alanam,USA

Phone: +1111111 Email: demo@demo.com

Account Type: Forex Currency: USD

Leverage: 1:400 Deposit: 10000

☒ I agree to subscribe to your newsletters

< Back Next > Cancel

Fill in the with the required information as shown below

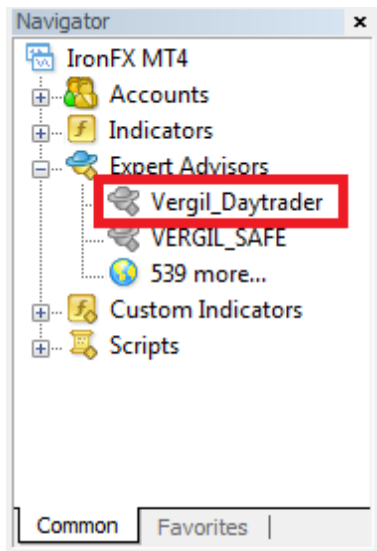

Click next, in the next window click scan, once the progress bars complete click next. Your demo account information will be shown; finally click finish and your account will be created.

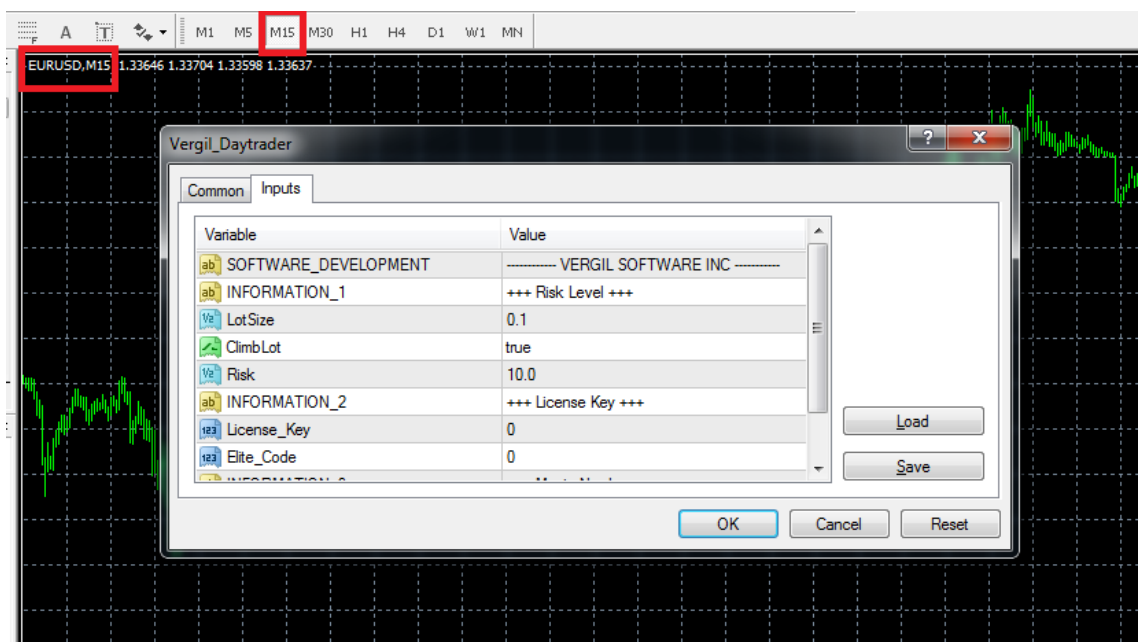

## Step 2

You have just created your demo account and are ready to put the EA to work. All you have to do is just drag and drop the expert advisor from the Navigator panel under expert advisor to the (15M) chart.

**Currency Pairs:** EURUSD, AUDUSD, GBPUSD, USDJPY, USDCAD, USDCHF

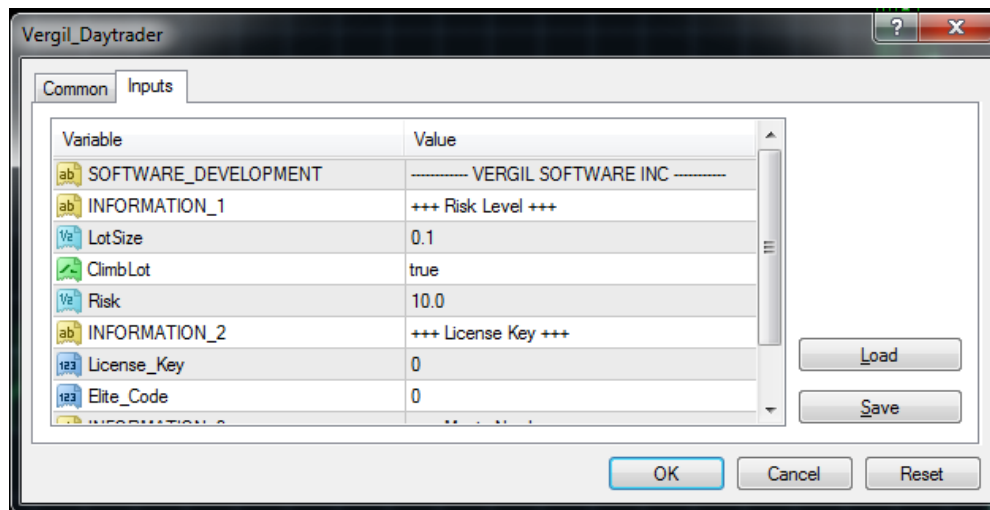

**Drag and drop to EURUSD 15M chart**

Set the common Properties as shown in the diagram above.

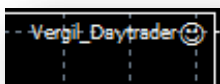

You can also modify the EA parameters by clicking the Input tab, as shown in the image below:

Complete instructions on parameters can be found under heading, Parameter Description.

#### Step 4

If the EA is successfully installed it will show a happy face icon on the upper right side of the chart. If you see a sad face icon make sure you have enabled the expert advisor by clicking the expert advisor button on the tool bar, as shown in the image below:

You have now installed the EA on chart and it is ready to pick profitable trades at appropriate opportunities. If for some reason your EA doesn't appear to work kindly read all the instructions again.

## **Parameter Description**

|                     |                                                           |
|---------------------|-----------------------------------------------------------|
| <b>Lot Size</b>     | : Fix volume size per trade                               |
| <b>Climb Lot</b>    | : Auto Increase Volume size on your account balance       |
| <b>Risk</b>         | : Risk Level per Trade                                    |
| <b>License Key</b>  | : Your license Key                                        |
