

FOREX REAL PROFIT EXPERT ADVISOR

Live Testing Real Accounts

@ 2010 - 2019 www.forexrealprofitea.com

Dear **Partner**,

We would like to **thank you** for choosing to be a ForexRealProfitEA member.

An e-mail containing your username and a **member access** password was sent to your email address.

As our valued Member, you are able to access the Member Zone (from <http://www.forexrealprofitea.com/> - upper right link) and **download** the FRPEU robot, together with FRPEU Manual and our Live Account Settings from the Download area.

//----

In order to get an **Activation Key**, you need to send us the following details:

MT4 Live Account Number: ...

Or (and)

MT4 Demo Account Number: ...

As soon as the above details are received, an Activation Key will be generated and sent to you and you can start using FRPEU on your account.

Activation Key for **live** accounts are **restricted** to a single account, can be changed for free and remain valid as long as the membership is active.

Activation Key for **demo** accounts are **not restricted** to a single broker or account and remain valid as long as the membership is active.

//----

Services available to our members:

- If you want to change your live account just send the old account number that you want to change and the new live account number, by using our Support System.

You will receive a new activation key for the new live account and the activation key for the old live account will be disabled automatically.

- We send newsletters, when needed, with major events during the week, if they could have a negative impact on the performance of our robot.

Live Testing Real Accounts

@ 2010 - 2019 www.forexrealprofitea.com

Recommended **settings**:

Historical max. drawdown on the last 16 years of tickdata backtesting less than 20%:
(Official account settings)

FRPEU 1.8:

Default settings,

All 6 strategies,

Currencies - EURUSD only

Risk_percent = 2,2 % on strategy 1

Risk_percent = 1,4 % on strategy 2

Risk_percent = 1,8 % on strategy 3

Risk_percent = 0,9 % on strategy 5

Risk_percent = 0,6 % on strategy 6

Risk_percent = 1,1 % on strategy 7

We calculated the risk so every strategy has similar historical drawdown values and scalping strategies combined use equal drawdown as break out strategies combined also. It's better to keep this balance and use our recommended settings.

More details about the risk can be found on Backtest_Details_FRPEU_v1.8 pdf.

//-----

Regarding the **brokers**, normally the robot works on any broker, but tight spreads (ECN) and good price feed (many partner banks) can improve the long term performance.
