alert zone ext tp2
alert tp 2 zone

normal tp

alert zone ext tp1
alert zone ext tp1
alert tp 1 zone

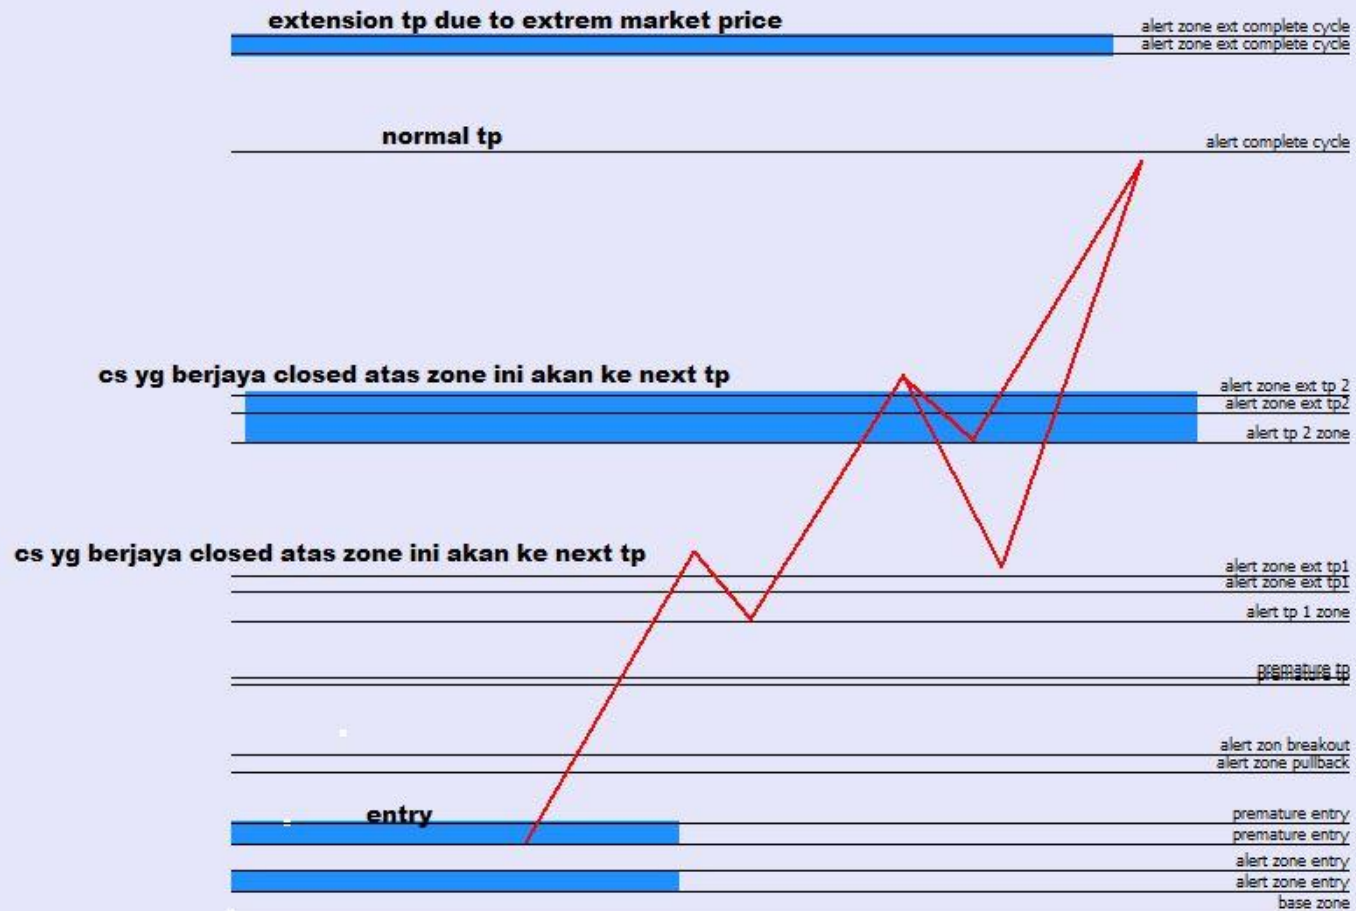

premature tp

alert zon breakout
alert zone pullback

entry

premature entry
premature entry
alert zone entry
alert zone entry
base zone

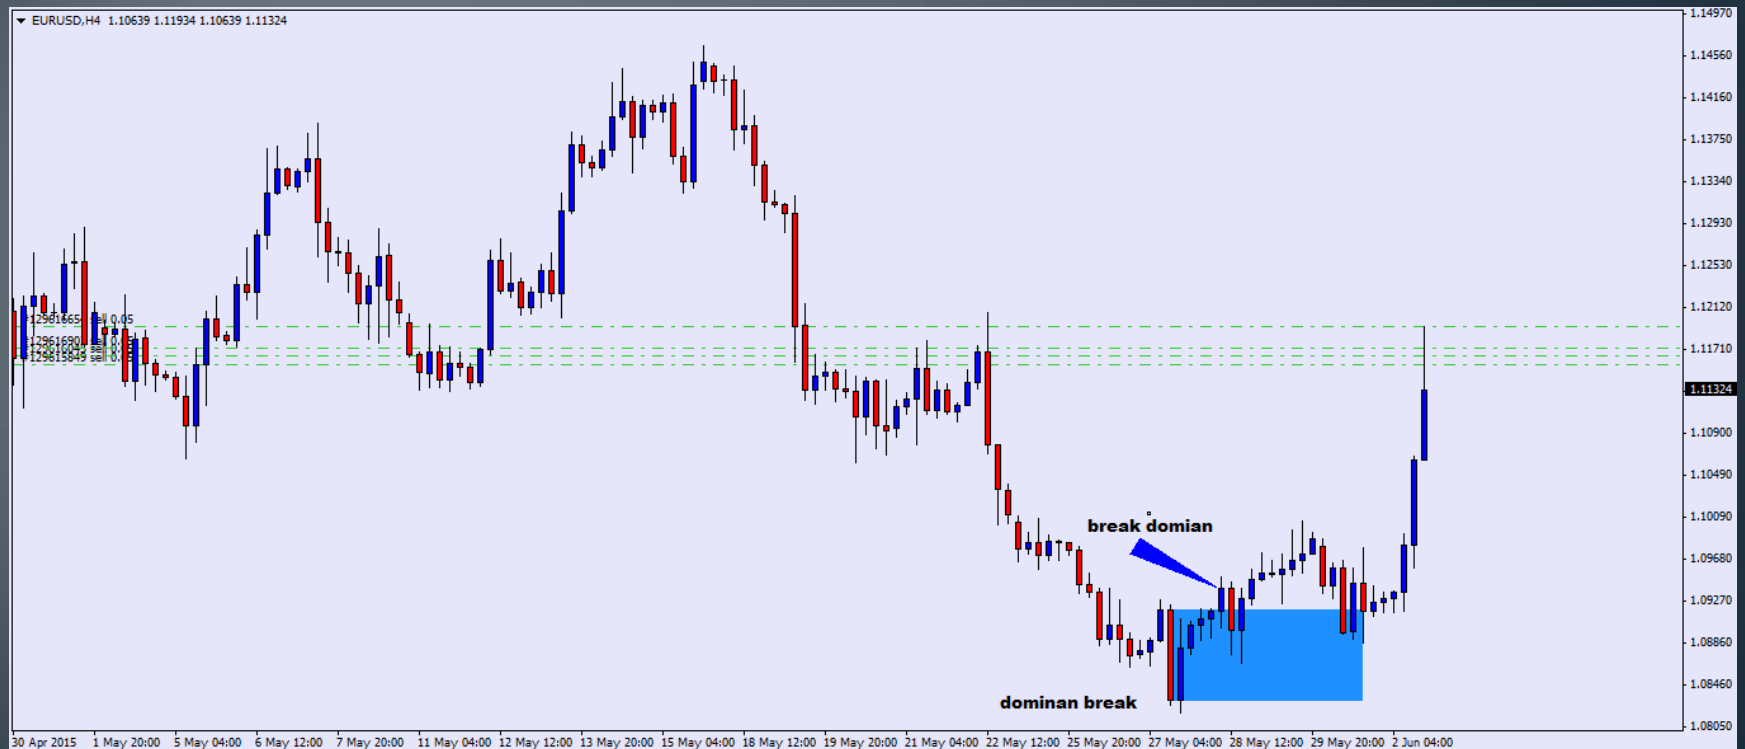

Cara kerja fibo

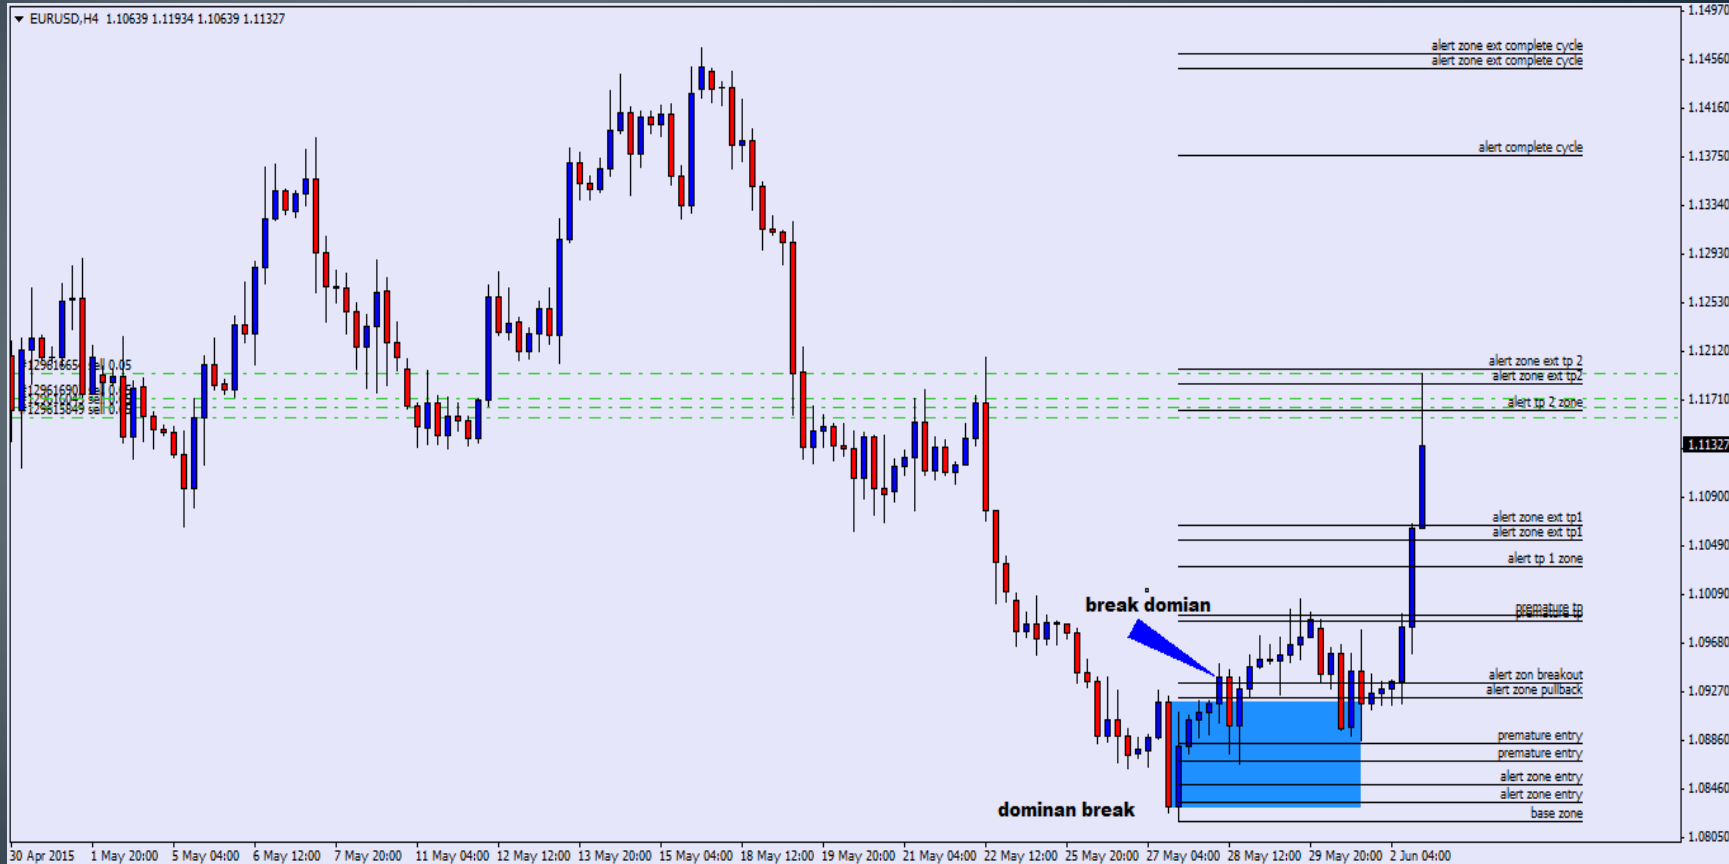

Cara menarik Fibo

- Asas untuk fibo musang elite sama macam asas untuk fibo musang.
- Fibo akan ditarik berasaskan dominan break dan SnR terdekat break.
- Dominan break adalah cs yang mampu keluar dari induk dan dominan harus mempunyai anak cs min 3 batang cs
- SnR break (aka cb1 break) adalah cs yg mampu pecahkan support atau resistance.

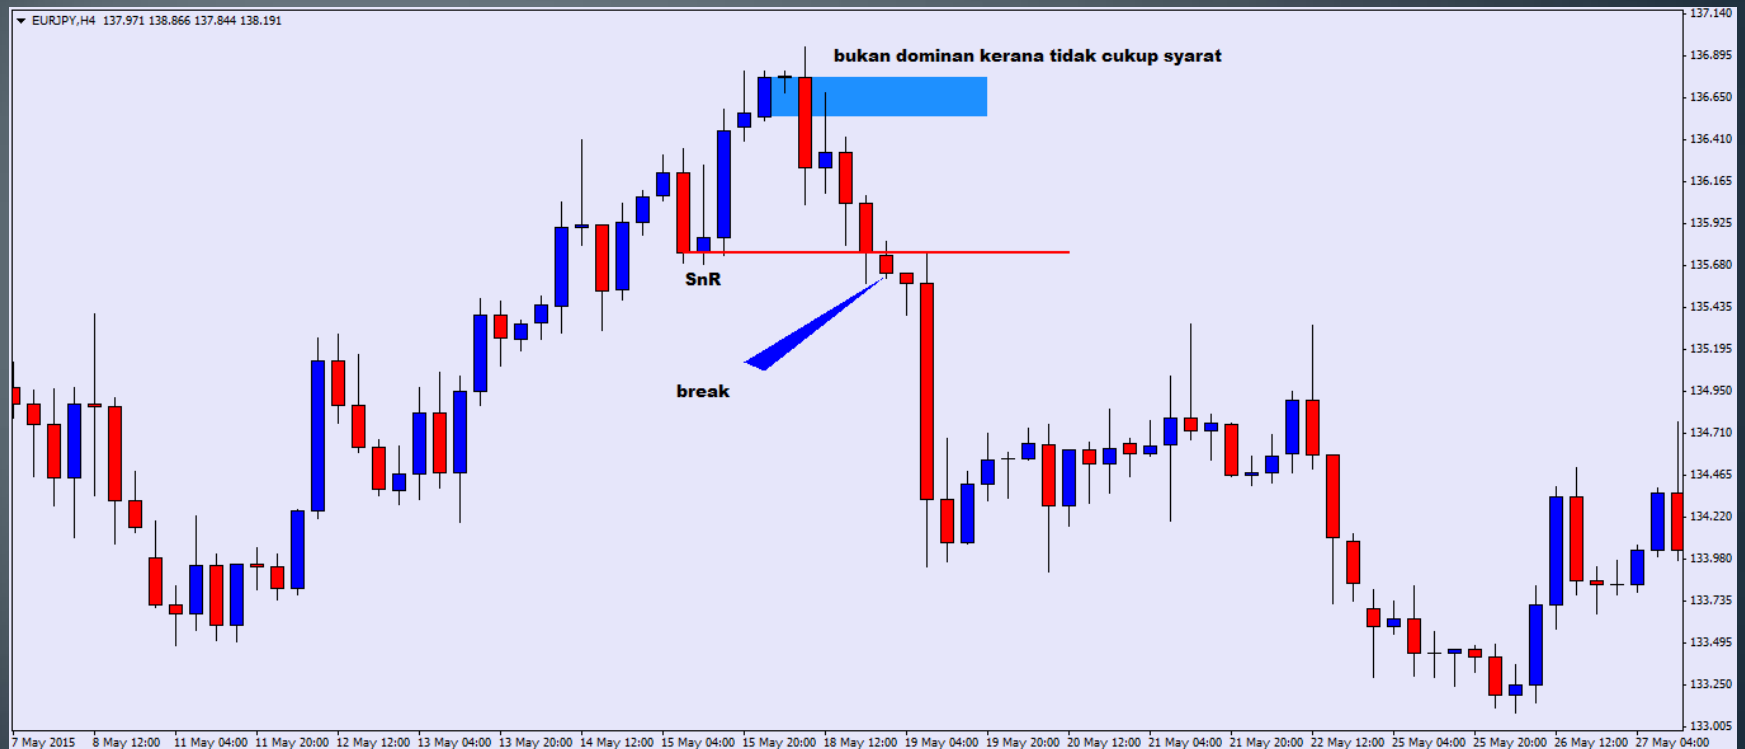

Dominan Break

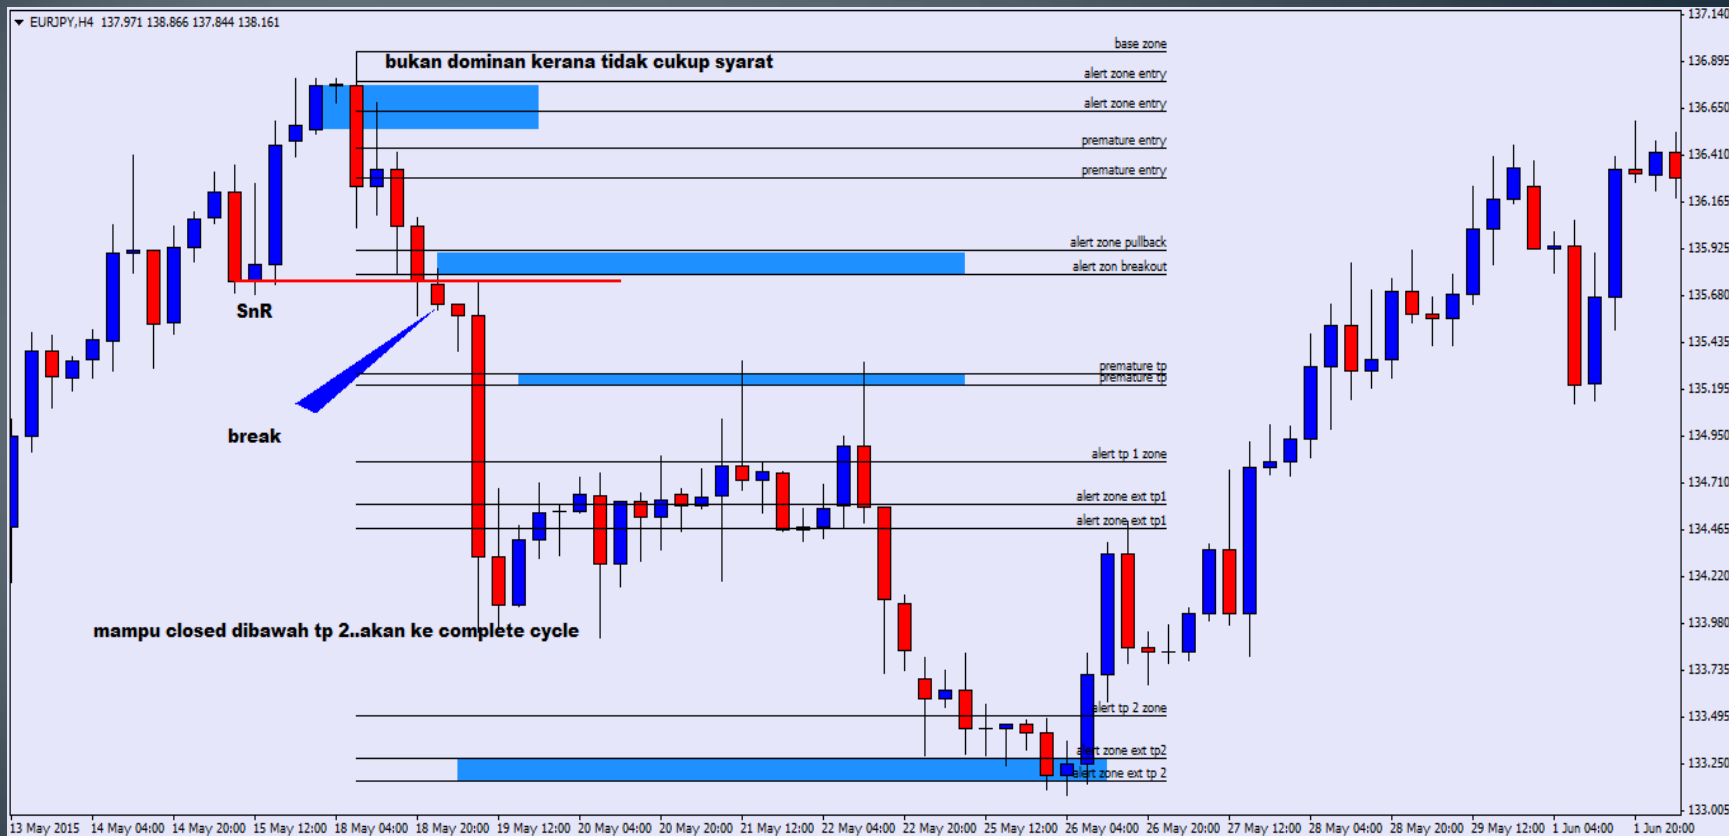

- Pastikan point di tarik dari body yg mampu closed keluar dari cs dominan. Jika masih kuat pergerakan market.. ubahkan ke ekor cs yg mampu break dominan
- Dilarang mengubah ke cs lain

Break SnR

Sekian Sahaja

- Sebarang masalah sila hubungi saya
