Risk Warning

Trading foreign currencies is a challenging and potentially profitable opportunity for Educated and experienced investors. However, before deciding to participate in the Forex Market, you should carefully consider your investment objectives, level of experience and Risk appetite. Most importantly, do not invest money you cannot afford to lose.

There is considerable exposure to risk in any off - exchange foreign exchange transaction, including, but not limited to, leverage, creditworthiness, limited regulatory protection and Market volatility that may substantially affect the price, or liquidity of a currency or currency Pair.

Moreover, the leveraged nature of Forex trading means that any market movement will have an equally proportional effect on your deposited funds. This may work against you as well as for you. You are responsible for any resulting losses. To manage exposure, employ "Risk Percent" parameter.

General

As a group of experienced Forex traders we know that for most of investors even when they have a good plan it's hard to control their emotions and take the right decision at the right time. Now with help of MQL and MetaTrader 4 we have created an automated system which do all the steps for you so you can easily control your investment without any direct interposition.

We have a group of live analysts in addition to our advanced market watcher software which will deliver the safe signals to the trader's account. It's completely an automatic process and there is no need for trader involvement. 4d4x Auto Trader Pro is compatible with all accounts types including ECN or None ECN accounts. It doesn't use hedge strategy so it can be used by all US or None US clients.

Strategy is based on multi time frames. It always checks the different market sessions to gain the best entry point. 4d4x Auto Trader uses the currency pairs Correlation to prediction the future behavior of the market.

What is it?

An Expert Advisor built for MetaTrader 4 can be a fully automated trading tool, using a combination of indicators, fundamental and technical analysis. An Expert Advisor is generally speaking a computer program based on a set of Forex trading signals generated by Forex indicators that helps you to determine whether to buy or sell a currency pair at any one time. The Expert Advisor (EA) may also be based on dependencies and not contain indicators. The tool is designed to remove the psychological factor of trading, which can be detrimental.

You should know and understand mechanisms and basic features of Forex trading and always remember that Expert Advisor is only a tool and you can't fully rely on it. The main element of Forex trading is a trader, and an Expert Advisor will always be on the second place.

System Requirements

- ✓ Microsoft Windows
- ✓ MetaTrader Platform Version 4.00 (Build 500 or higher)

Refund Policy

Your purchase will apply to the money-back guarantee if you fulfill all the terms and conditions below:

1. OPEN AN ACCOUNT THROUGH OUR REFERRAL LINK.

You need to register at one of brokers with referral link and open a new trading account. If you already have an account at one of the broker, some brokers only require you to send an email to the broker for a make an application transfer your account to our partner group. There are some brokers, even if you already have an account, you must open a new account by clicking on a referral link for becoming one of our partner group.

2. 4D4X AUTO TRADER CANNOT BE USED IN YOUR BROKER METATRADER PLATFORM.

In this case, we can give you five days for you to solve this problem with your broker. If the problem is due to installation problems, we will try to install it for you and you have to give all the information needed for this installation. If the problem is related to the account and cannot be solved, we will full refund your money.

3. NO INTERVENTION IN YOUR TRADING ACCOUNT.

During the warranty period, we expect you to let 4d4x Auto Trader Pro Trade automatically without the intervention whether you trade manually or you use other robots in the same account. In addition, we expect you to let 4d4x Auto Trader Pro running 24 hours non-stop. For this, we recommend you use a VPS. We also want you to just trade one currency pair with the settings "Risk" a default.

4. GIVE US A SCREENSHOT AND INVESTOR PASSWORD (READ ONLY) OF YOUR METATRADER ACCOUNT.

When applying for a money-back guarantee, you are required to provide us a screenshot of your trading account. In addition, you should also give investor password (read only) for your MetaTrader account. Investor password just to be able to see the account only and we cannot trade your account. We will check your account whether it eligible for money-back guarantee or not. After a period of no later than 48 hours, we will respond to your request.

5. ONLY A ONE GUARANTEED FOR ONE ACCOUNT NUMBER.

Guarantee applies only to one account numbers. If you plan period has expired, and you wish to pay for the new plan with the same account number, there is no guarantee another will continue.

Referral

The main requirement if you want money-back guarantee is register and open a new account at one of broker below:

➤ ROBOFOREX

Click the banner ROBOFOREX and open a new account. Enter "oywa" in the "Affiliate code" field. Usually the code will enter automatically. If you already have an account at ROBOFOREX, you need to open another account in your Profile at ROBOFOREX, make sure you enter "oywa" in the "Affiliate code" field.

➤ GALLANT CAPITAL MARKETS

Click the banner GALLANT CAPITAL MARKETS and open a new account. Make sure text "NOR" there appear when you click. In section "Select Referral", select "Friend". Enter "NOR" in the "Referring Party" field. Usually the code will enter automatically. If you already have an account at GALLANT CAPITAL MARKETS, you need to open another account in your Profile at GALLANT CAPITAL MARKETS, make sure you enter "NOR" in the "Referring Party" field.

➤ EXNESS

Click the banner EXNESS and open a new account. Make sure no: 7032061 there appear when you click. If you already have an account at EXNESS, send to EXNESS support service at support@exness.com an e-mail with the following text: Please transfer my account no. (Your account number), full name, your phone password, to partner group no. 7032061.

➤ OCTAFX

Click the banner OCTAFX and open a new account. Make sure no: 200879 there appear when you click. Enter "200879" in the "Affiliate code" field. Usually the code will enter automatically. If you already have an account at OCTAFX, you need to open another account in your Profile at OCTAFX, make sure you enter "200879" in the "Affiliate code" field.

How to Install

Please follow the below steps carefully to install our automated robot. You only need to follow the below instructions once, then your system will remain on auto-pilot so long as your computer is turned on with Metatrader running.

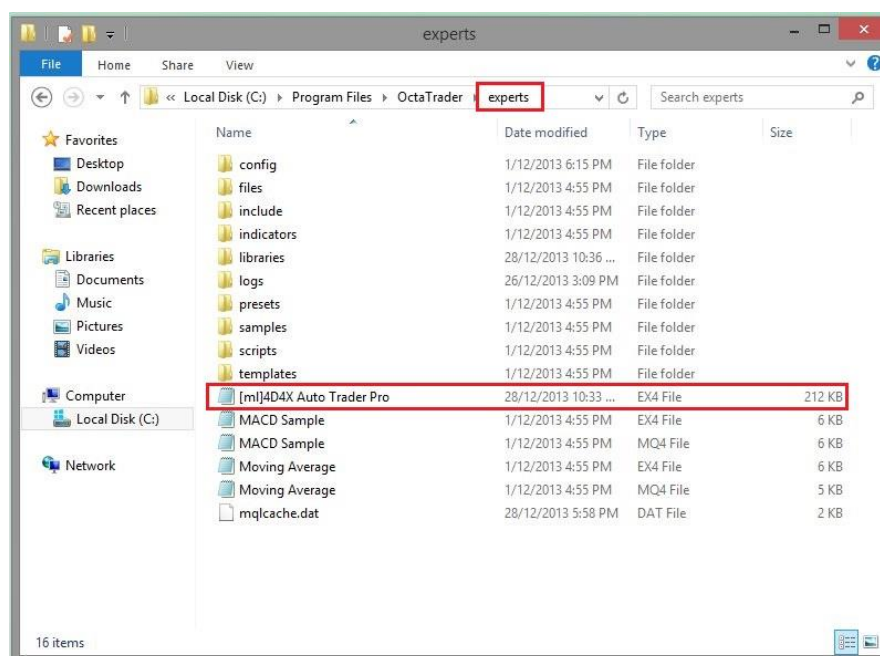

Downloading Metatrader 4

As you know, our automated system is an expert advisor script that runs on the Metatrader 4 platform, as offered by over 400 brokers worldwide.

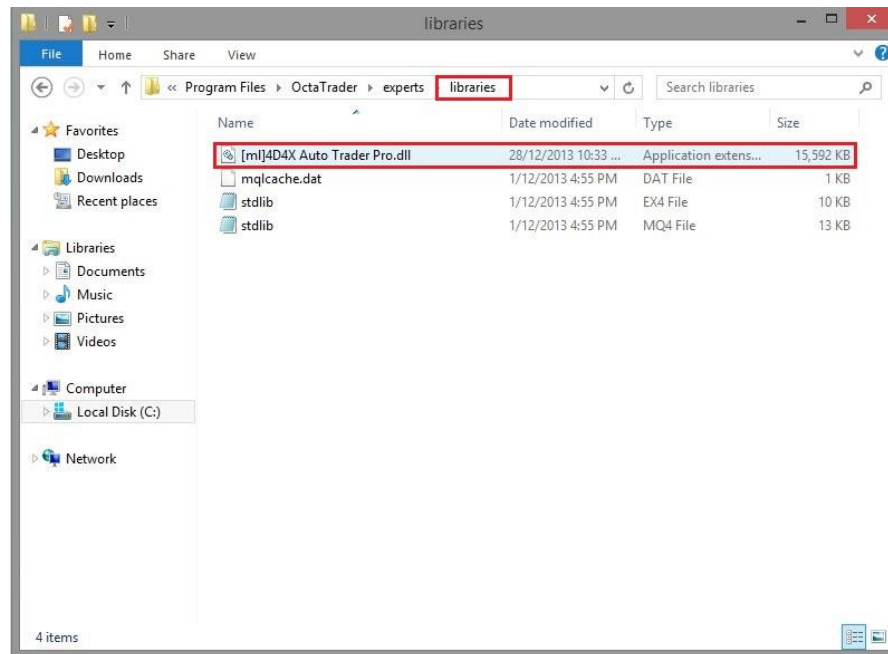

If you've never used Metatrader 4 before, don't worry, it is a very simple platform that anyone can use, it really does only take a few minutes to setup, then you don't have to do it again. It's all point and click type software, designed for those not so tech savvy.

Installing the 4d4x Auto Trader Pro

After downloading and installing Metatrader 4 from a brokers website, please close down Metatrader, and copy the robot files [ml]4D4X Auto Trader Pro.ex4 from your zip download into the expert folder in the Metatrader Folder (the path should usually be C:/Program Files/ MetaTrader 4/experts folder) as shown below:

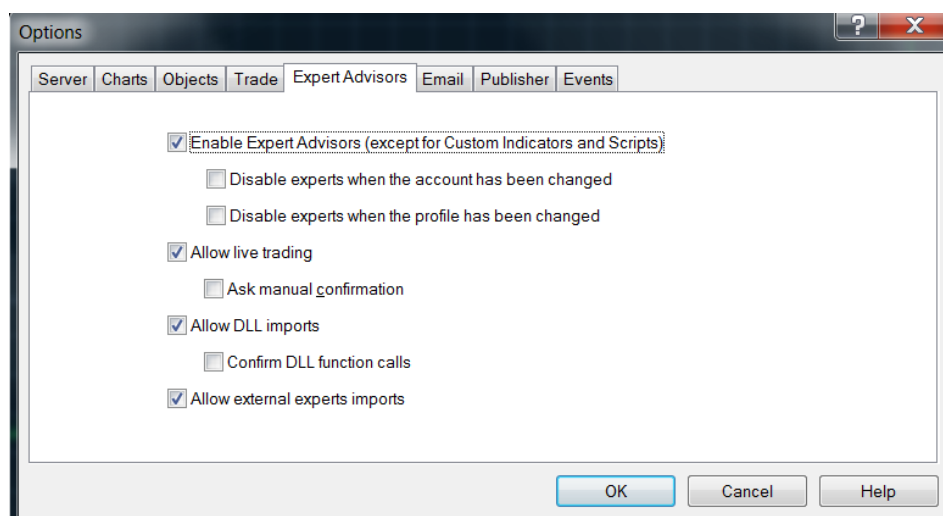

Then copy the [ml]4D4X Auto Trader Pro.dll file to your C:/Program Files/MetaTrader 4/experts/libraries folder like in the image below:

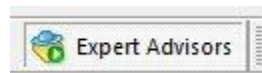

Now you can re-open up Metatrader.

After opening Metatrader(MT4), hold down the CTRL + O keys, and then click on the Expert Advisors tab, and configure options to show the same as below:

Make sure the "Expert Advisors" button is enabled on the platform. It should be as follow:

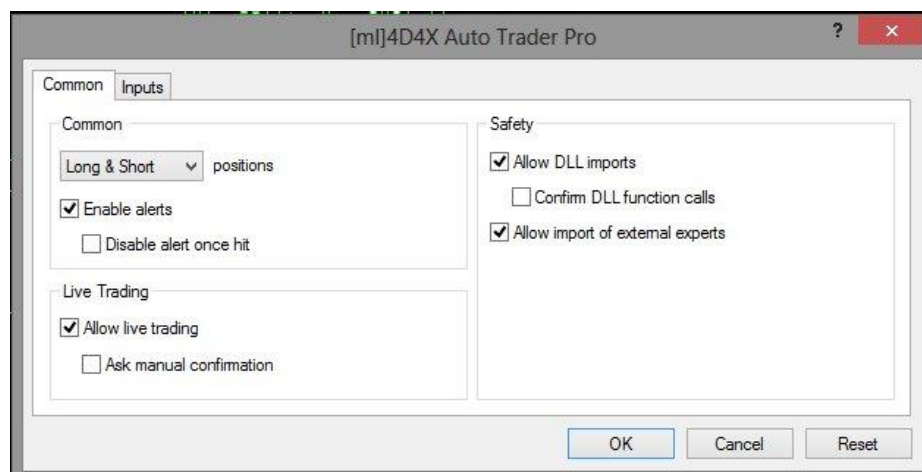

Open "EURUSD" chart and you can use 4d4x Auto Trader Pro any timeframe (we recommend the M30 timeframe).

Click on the "Expert Advisors" tab on "Navigator" window and double click on "[m]4D4X Auto Trader Pro".

Ensure the pop up window looks the same as below:

Click the Inputs tab on the dialog box and enter your settings on the respective field like in the image below:

Variable	Value
MAGIC_NUMBER	785336
Value_Time	Enter the Value Time_Trade between 0 - 23
Time_Trade	1
MoneyManagement	true
Risk	10
Fixed_Lots	0.2
Stoploss	250

Buttons: Load, Save, OK, Cancel, Reset

You should have sent an e-mail by giving your MT4 account number as it is required to activate your product. Once you're done, click Save and then OK. EA will validate your account number.

If it loaded successfully, you will see smiley face on the top right hand corner of the chart.

If everything is right than you will see below screen when the market is open.

Configuration

Input Settings

MAGIC_NUMBER : Trade identifier, no need to change

Time_Trade : Time to 4d4x Auto Trader began making open position. (Please enter value 1 – 23).

Note: Time is based on the broker server time clock. 0 = 00:00, 1 = 01:00, 2 = 02:00, so it goes until 22 = 22:00 and last 23 = 23:00. It will make the open position every 4 hours starting from the time you set, and recurring only three times if the first open order has been closed.

MoneyManagement : true/false. (If true, you have to fill in "Risk" and "Fixed_Lots" not work. if false, you need to fill "Fixed_Lots" and "Risk" not work).

Risk : The EA uses this value to determine the first position lot size. If you set this to 10, the first position lot size would be 0.05 standard lots for USD1000 account balance.

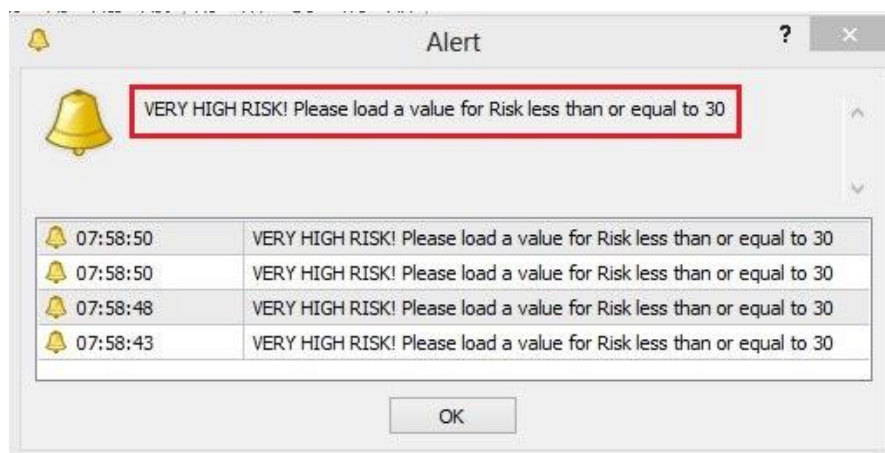

Fixed_Lots : Value lots size that is set manually. Only applies if **MoneyManagement** false.

Stoploss : Value for Stop Loss. (We recommend the default settings).

Errors

There are some errors that may appear when you use 4d4x Auto Trader Pro.

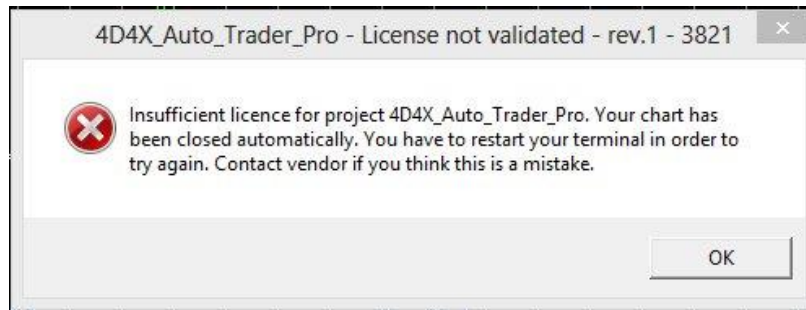

1. Appears alerts = **"VERY HIGH RISK! Please load a value for Risk less than or equal to 30"** like in the image below:

This problem occurs because you have set "Risk" more than the "30".

Make sure you set the "Risk" figure of 30 or less. We provide it so since we do not want you to use a high risk because you have to understand Forex is at high risk.

2. The chart in the window MT4 disappears and the image will appear as below:

This shows that you have been using 4D4X Auto Trader in the wrong account number.

Make sure you use the same account number as you register with us.
