

Connecting Hedge Scalper EA 25 to Server

To run the hedge scalper EA on your account, You must connect it to server then you would be able to use.

Follow the following steps to add server into list.

1. Open your MT4
2. Click Tools
3. Click Options
4. Click Expert Advisors
5. Check ☒ Allow webrequest for listed URL:
6. Then Add two URLs to the list
 - <https://eatrades.net>
 - <https://eatabase.com>
7. Then click OK.

Now put the EA on chart. It should be working now.
